TMZOOM - Trademark searching next level

With TMZOOM, you perform trademark searches yourself quickly, cost-efficiently, absolutely reliable, and safe. The search algorithm is based on the know-how we have gained over the decades. Our SMD search experts use the same technology in their daily business, and it is also continuously optimized. The search mask is straightforward and self-explanatory for beginners. Advanced users can open up the full functionality with just one click.

Results list - quick and easy

You receive your search results in a few seconds - presented concisely as a table sorted by relevance. The colors red, yellow, and green indicate the relevance of results; important, less important, or not crucial. That allows for prompt decisions. You can easily re-sort the matches according to your needs, filter them and add your comments with a few clicks.

Informative reports - created in no time at all

Even as a newbie, you effortlessly create meaningful and professional search reports that impress your clients and colleagues. As an expert, you have access to sophisticated additional functions that allow you to create reports that meet your requirements in every detail. The handling is simple and comfortable.

COMING SOON: Self Service Watch Tool

Watching is also easy - at home, on the road, or in the office: You can access your orders and watch notes online at any time and from anywhere. With a few clicks, you adapt the interface to your needs or define client-specific settings regarding the distribution of reported hits, etc. You get more done in less time and can act quickly to protect your mark.
